The first adjuster to be on the ground after the recent hail storm was Mr. Leather, of Mackled, representing Thomas C. O'Connell company. The adjustments made by Mr. Leather were very satisfactory.

Will Stone, manager of the hardware department of the Raymond Mercantile, was taken to the Galt Hospital last week suffering with acute appendicitis. He was in a very critical condition on his arrival at the hospital and an immediate operation was performed. For several days grave fears were entertained as to his recovery, but Monday morning the turn for the better occurred, and he is now improving splendidly.

Excursion to School of Agriculture

The provincial Department of Agriculture has just completed arrangements with the various Railway Companies for a three days Excursion to the Schools of Agriculture, when a most interesting and instructive programme will be given by the Staffs representing the Schools and the Department of Agriculture. The dates for the visit to Claresholm are Monday, Tuesday, and Wednesday, August 7th, 8th, and 9th, and single fare rates have been arranged for on the Convention plan viz:

Passengers will purchase one way tickets from any station and by any train to Claresholm, taking a Standard Certificate Receipt from the Ticket Agent. An Official at the School at Claresholm will sign this receipt, and said receipt can then be exchanged at the station for a regular ticket good for the return journey.

The programme will include the following:

Judging, feeding, and care of live stock.

Diseases of farm animals and their treatment.

Study of crops and cultural methods.

Identification of weeds and weed seeds.

Burn plans suitable for Alberta. The farm gasoline engine.

Practical poultry problems.

Practical science, mechanics, cooking, canning, sewing, laundering and house nursing.

It is hoped there may be a large attendance as a splendid opportunity will be given for seeing the complete operations of the School and inspecting the crops and Experimental plots. Visitors can remain during the whole three days or any portion thereof.

For further particulars address ALEX GALLBRAITH Supt. of Fairs & Institutes Edmonton.

HON. DUNCAN MARSHALL Minister of Agriculture.

Mayor O'Brien left Wednesday morning for Calgary, being previously notified by the Home Insurance company that he was selected as the adjuster for certain hail losses sustained by farmers on the Aldersyde branch holding policies with the Home. S. F. Kimball is local agent for this company.

News arrived here early this week of the death in Layton, Utah, of Mrs. E. P. Ellison, wife of the well-known sugar magnate, and mother of James E. Ellison, formerly manager of the Knight Sugar company and bishop of Raymond first ward. Mrs. Ellison made a short visit to Alberta about eight years ago.

The largest writ ever issued through the courts at Lethbridge was put through last week by the Standard Trust company of Winnipeg. The writ was for approximately \$90,000 and was against property in the Raymond district principally south of town. Many local names figure in the record-breaking order.

Mr. and Mrs. Bernard Smith left Thursday for the south. They will visit Mr. Smith's mother in Idaho before proceeding to Salt Lake, where Mr. Smith will commence his medical course in the University of Utah.

Fairfax Gordon, son of J. F. Gordon, recently joined the U. S. Marines and is now at the San Francisco training station.

The stake and ward officers of the Y. L. M. I. A. gave a pleasant party in honor of Mrs. Gordon at her home last Friday night.

"Uncle Tom's Cabin," the play that will never die, at the Opera House next Monday night.

It is estimated that about 100 men are helping in patriotic service by assisting to augment the funds of the Red Cross is furnished by the excursion arranged for Saturday, July 29th, by the Lethbridge Branch of the Society. This date will enable visitors to see the combined troops of Alberta reviewed by the Duke of Connaught.

Proclamation.

By virtue of my office as mayor of the town of Raymond, I hereby declare Monday, July 24th, Pioneer Day, a public holiday, and ask that all citizens observe the same.

T. J. O'BRIEN, Mayor.

Pioneer Day, Monday, will be appropriately commemorated in Raymond, the celebration being under the auspices of the Primary association. There will be a grand parade at 9 o'clock and a public meeting in the Opera House at 10:30. In the afternoon there will be a program of sports pulled off at Victoria Park, commencing at 2 p. m. In the evening, the popular, old drama, "Uncle Tom's Cabin," will appear at the Opera House with an excellent cast.

Mrs. H. S. Allen returned last week from a delightful visit with her daughter, Mrs. Jack Mackay, of Ogden, Utah.

The Utah excursion special for Canadian points will leave Salt Lake City Wednesday, August 2nd. Large numbers of visitors are expected from the south on this excursion. The train should arrive here about the 4th.

Ptes. William Whitlock, Reed Card and Lorrin Neal, of the 113th, and Ptes. G. H. Lightfoot and James Gilbert, of the 175th, spent the week-end at home.

"The Suburban" a thrilling race track drama, featuring King Baggot, at the Rex Monday.

Live News of Busy Magrath

A Twine Shortage

As was intimated in these columns some time ago, the probability of a twine shortage in the west this fall is becoming more likely. At the time the farmers generally ridiculed the idea.

The bulk of the sisal used in the manufacture of twine comes from Mexico. The provisional government of that republic put an embargo on sisal, later followed by an order stopping its exportation entirely.

The source of supply being cut-off the manufacturers are forced to refuse contracts. Raymond dealers have less than three cars available, with little hope of getting more.

At Magrath a similar story is told. Last year about 100,000 pounds of twine were used. This season C. Christensen informs the Leader that he has only 40,000 pounds and Frank Kent has about 24,000 pounds. Neither of these dealers are able to obtain any more from the wholesalers. Mr. Christensen asserts that if the farmers cannot get twine this fall, they have only themselves to blame. He told many of them early this year that there would likely be a shortage and they laughed at him.

The T. Eaton company, it might be added, will not accept any more orders for twine, which in itself is an indication of something serious.

Dedicate New Church

Magrath's handsome new Latter Day Saint chapel, which is now completed and paid for, will be dedicated at the Taylor stake conference which for the first time in years will be held in Magrath, two weeks from today and tomorrow. This was the decision of the stake presidency after their visit to Magrath last Sunday. Pres. Allen and his counselors speak very highly of the new edifice and of the business-like way in which the money has been raised and expended.

An invitation has been extended to President Smith, but it is not likely that the aged churchman will be able to attend. Some of the Council of the Twelve will, nevertheless, be in attendance and will officiate at the ceremonies. The music will be in the hands of the Magrath choir, J. Olson, bridge, conductor, and he promises a splendid program.

Miss J. Alfred Ririwas a visitor to Raymond last Thursday.

Quite a number of Magrath people attended the funeral of the late Miss O'Brien, of Milk River, who was drowned while bathing not long ago. Bishop Harker officiated and Magrath singers contributed the music. Pres. Allen and Pres. Brandley were speakers and an impressive service was held.

Pioneer Day

Everything is in readiness for the greatest celebration ever held in Magrath next Monday. The advertising issued by the committee announces the best list of sport and amusement Magrath has ever attempted, and all that is needed is fine weather to insure a successful celebration.

The Lethbridge band and orchestra have been secured and will furnish the music during the day and the dance in the evening. Every auto in Magrath is going to be in the monster parade, and from every business house and residence in town the Union Jack will be unfurled early Monday morning.

The funeral of 7-year-old Walden Fletcher was held Saturday afternoon, the chapel being well filled. The Bee Hive Girls of Mrs. Fletcher's swarm were honorary pall bearers and Walden's Sunday School class carried pretty floral offerings. The speakers were Elders Hindly, Jensen and Woolley. The floral tributes from relatives and friends were numerous and beautiful. The L. O. O. F. of which Judge Mr. Fletcher is a highly-respected brother, furnished motor cars and attended in a body. The little one was buried in the family burial plot in the public cemetery.

The Women's Institute wish to announce their annual strawberry festival on July 25th at the home of Mrs. Shelton at 4 p. m. Ladies are invited. Musical numbers will be given by Miss Bradshaw, Mrs. Ririe and Miss Shelton.

Miss M. Merrill of Billings, formerly of Magrath, has joined the Canadian Red Cross. Miss Merrill has been taking a nurses course in a Provo, Utah, hospital, but resigned in order to do her bit for her country, a self-sacrifice that is most commendable.

Official cards have been received from members of the 13th O. M. R. telling of their safe arrival in England. Later English mails will no doubt bring further details of South Alberta's Own regiment.

SYNOPSIS OF CANADIAN NORTH WEST LAND REGULATIONS

THE sole head of a family, or any male over 18 years old may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-agency for the District. Entry by proxy may be made at any Dominion Lands Agency that not Sub-agency on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter-section along side his homestead. Price \$1.00 per acre.

Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$1.00 per acre. Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.

The area of cultivation is subject to reduction in case of rough, cruddy or stony land. Livestock may be substituted for cultivation under certain conditions.

W. W. CORY C.M.G.,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Wool Sells High

About 250,000 pounds of wool belonging to members of the South Alberta Wool Growers association were sold at the big annual sale held in Lethbridge last Thursday. J. F. Gagan, of Magrath, was paid the highest price for his clip, 34 3/8 cents. This is considered an exceptionally good price. Bishop Harker sold at 31 1/2 cents. His sale is considered very successful, although Rev. Knight, the Knight Sugar company, John T. Heinger and a number of other woolgrowers decided to hold their wool for higher prices, choosing to store it rather than sell at the prices offered. Chicago and Boston dealers bought the entire lot sold. Mayor Hirtle has just finished shearing at the Harvey machine plant.

A severe storm is reported from the shearing plant to the east, and quite a number of sheep which were left bare by the machines, died of exposure. The losses, however, were not great.

Mrs. Barclay, who has been visiting with her parents, Mr. and Mrs. Baxter, returned to Calgary last Thursday.

A public meeting will be held at the local illustration farm, James Meldrum, superintendent, Tuesday, July 25th, at 2 o'clock, under the auspices of the department of agriculture of the Dominion. All farmers are urged to attend this inspection of the farm and the discussion that will follow.

SIR PENYVERN'S WIFE

FLORENCE WARDEN

Wood Lake, C. M., Ltd.
TORONTO

(Continued)

Fenner left the room, and for one moment his master hesitated to face the awful thing that lay under the couch. But he recovered his nerve, went drawing the sofa back, looked down on the carpet.

Then he stood motionless, staring stupidly, breathing hard, a cold chill striking down his back, and his lips becoming as if paralyzed by a great, cold, new terror.

There on the carpet at his feet, where the sofa had been, there was a little red stain, which had attracted the attention of the lady.

But of the body which had lain there less than an hour before there was now no other trace.

At first Sir Penyvern was inclined to believe that he was the victim of a nightmare. The body of the past hour and a half had been so horrible, and so utterly so horrible, that the latest and most inexplicable turn of events, left him dumb.

Overwhelmed by the distress and perplexity on his wife's account, he kept on the strain of the first discovery of the body of Rathbone, he was unable to do anything in the first few moments after he had moved the sofa away from the wall and found nothing but the carpet beneath it.

What did it mean? He was not then or there pulled himself together, and set himself to work on the problem.

The body of the dead man had been removed during the night. It was not taken away quickly and cleverly, and was too difficult to avoid. He had removed the body.

Supposing the first conjecture to have been wrong; supposing that the lady had accidentally killed Rathbone, could he reasonably suppose that she had removed the body?

To believe that a delicately-bred young woman, who was so much appealed by the accident that she dared not speak of it even to her husband, would have had the courage to carry off the body of the dead man and hide it in the room of a dead man, was a very great thing.

But although such a feat as her removal of his body was, it was not impossible, the improbability of it was so great that Sir Penyvern rejected altogether that solution of the mystery.

A new thought assailed itself. He went through the hall to the room of the dead man, and he was certain of a man of his own character and perhaps criminal action.

The lady and the two young men had constant access to the study, and if one of them had found Rathbone tampering with the papers, and drawers, and playing with his revolver, he would have been a fatal quarrel might easily have been provoked.

Was Fenner himself, the faithful servant, the culprit?

It struck Sir Penyvern, as he reflected on the probability of the latter's having been unusually inquisitive since the affair. And he was an old soldier, used to firearms.

There he was, he considered this hypothesis, the more probable the more seemed to him to be that it was the right one. True, Fenner had been startled at the sight of the stain under the sofa; but that might have been because he was afraid of the master's notice, and, asking questions as he knew it came there.

But then, Fenner had murdered Rathbone, and she had found the dead man on the study floor, the last thing she would have done would be to hide the body, her first impulse would have been to alarm the household, and to have the matter investigated.

And so after all his hand thinking the unfortunate Fenner was forced back to the same terrible truth; his wife knew something about the death of Rathbone, and had done her best to put off confession of what she knew.

Had the shock of the discovery rendered her for the time scarcely more than half-sane? Was she, although she was so much in a state of worship of her husband's work and his knowledge, the only story of his having happened? Was she, in her horror of a crime and scandal, trying to hush up the affair, and inventing such an unlikely story as this?

Half the story of the scandal which had been the cause of her husband's death, could be so poor. Rathbone was her husband, and she was so much in a state of worship of her husband's work and his knowledge, the only story of his having happened? Was she, in her horror of a crime and scandal, trying to hush up the affair, and inventing such an unlikely story as this?

Prosperous Alberta

The Phenomenal Growth of Agriculture and Other Industries

Big crops of wheat and cereals grain at high prices; herds of best cattle and sheep, some of them reaching up to \$2.50 per hundredweight; loads of from ten to eleven tons of poultry, including chickens, milk and cream products constantly mounting; some farming and better farming, bigger crops and bigger prices—these are the facts which are sufficient to explain Alberta's prosperity. But the great highway of the province is making a better, surer, and sufficient to explain Alberta's prosperity.

In 1905, ten years before last, scarcely a crop of wheat was raised in the province, and the yield was about an average of a ton per acre. In 1914, the crop was 2,200,000 bushels, and the yield was about 2.200,000 bushels.

And so after all his hand thinking the unfortunate Fenner was forced back to the same terrible truth; his wife knew something about the death of Rathbone, and had done her best to put off confession of what she knew.

Had the shock of the discovery rendered her for the time scarcely more than half-sane? Was she, in her horror of a crime and scandal, trying to hush up the affair, and inventing such an unlikely story as this?

Half the story of the scandal which had been the cause of her husband's death, could be so poor. Rathbone was her husband, and she was so much in a state of worship of her husband's work and his knowledge, the only story of his having happened? Was she, in her horror of a crime and scandal, trying to hush up the affair, and inventing such an unlikely story as this?

Half the story of the scandal which had been the cause of her husband's death, could be so poor. laborers to make their homes by preference in Alberta; and the rich agricultural districts capable of producing the foodstuffs for millions of people. But although as stated, manufacturing is yet in its infancy, it has already assumed some importance. The latest census returns show that 200 manufacturing plants in the province, consuming raw material worth \$100 millions per year, and producing finished products amount to the value of twenty million dollars.

The farmer may not yet have any direct interest in lumbering, mining, or manufacturing, but these industries have a great bearing on his prosperity, nevertheless. They consume a large proportion of his farm products, dairy products, etc., affording him a ready market for his surplus. And at the same time they supply him with lumber, fuel and certain lines of manufactured articles at less cost than he would otherwise pay.

And so after all his hand thinking the unfortunate Fenner was forced back to the same terrible truth; his wife knew something about the death of Rathbone, and had done her best to put off confession of what she knew.

Had the shock of the discovery rendered her for the time scarcely more than half-sane? Was she, although she was so much in a state of worship of her husband's work and his knowledge, the only story of his having happened? Was she, in her horror of a crime and scandal, trying to hush up the affair, and inventing such an unlikely story as this?

Something About Heavy Guns

The German Seventeen-inch Naval Gun Theory Has at Last Been Exploded

10 CENTS PER PLUG

As to the big 17-inch naval gun theory, that was soon exploded. The French had found the position of the gun that was firing into Dunkirk and photographed it. It was found to be not a naval gun at all, neither was it of French caliber. It was only a German 16-inch siege howitzer embedded in concrete and rigidly set at its maximum elevation so that it could not be actually aimed, but merely fired lazily in the general direction of Dunkirk. Its purpose was merely to frighten the British, and its effect was to cause so much damage after it was fired that it was supposed to be a new gun. Mr. Douglas rebounded on his own head.

Common sense, also, would have told such experts that even if the German ships armed with 17-inch 17-inch naval guns, such munitions pieces would only be handiwork at the expense of the caliber. It can readily be figured out that a 17-inch gun would weigh about double the weight of the 15-inch gun, and that it would cost twice as much to mount on a ship.

London dock laborers are earning as much as \$50 per week. It is not so much that they are struck for 12 cents an hour.

Than the BEST.**

WHEN YOU INSURE your crops against Hail why not place your business with the strongest company in America and the one that has been tested and tried. Last year the Winning Underwriters of the **HOME** paid out in losses in this district nearly three times as much as was received in premiums, and the losses were paid promptly. Everyone was very well satisfied with the liberal adjustments which were made. You are SURE of getting your money no matter how heavy the losses may be. The Company has assets of \$27,000,000.00 which is something to be considered in taking out insurance.

If you want the best Insurance call and see me.
T. J. O'Brien will assist in the adjusting of losses.

RAYMOND LEADER

Published Every Friday

\$1.50 a Year in Advance

F. C. STEELE, Editor

Next Monday is Pioneer Day. On July 24th, 1847, the vanguard of the "Mormon" pioneers landed in the valley of the Great Salt Lake. This day has rightfully been made an annual day of rejoicing among the Latter Day Saints, as it was the beginning of a new era in the history of that religious body, and marked the dawn of civilization in the Far West. The "Mormons," under the leadership of the modern Moses, Brigham Young, were the real trail-blazers of the West. With a fidelity and zeal which only religion can inspire, they conquered a land of savage Indians, crawling lizards and sterile valleys, making of it a land of flowing milk and honey. The achievements of the "Mormon" people, their sufferings, their cheerfulness and faith in the face of adversity their unflinching devotion to a cause, their ingenuity in colonization, is something that stands out in inspiring relief on the pages of human history. Their trek across a continent and the complete subjugation of a desert, has never been equalled before nor since.

Infantile paralysis, a malady as yet incurable, has taken hundreds of babies in New York City. It has spread into Canada. There are cases reported from Winnipeg and Calgary. From Macklin, Sask. the plague is reported, four babies being stricken. The Saskatchewan and Alberta health boards are co-operating with the cities in combating the possible spread of the dread disease. At present there is no cause for alarm, but the authorities are doing the right thing in taking the necessary precautions.

With bright prospects of another bumper crop, Raymond farmers are wearing a by-four smiles.

The man who said that our story last spring foreshadowing a twine shortage was an advertising scheme between the dealers and this paper, may discover his mistake before long.

In the return of Harry Nicholson to his old home in Toronto, sport in Southern Alberta loses its best friend. "Nick's" snappily edited page in the Lethbridge Herald was always considered the voice of the sporting fraternity in this neck of the woods.

Ray Knight says he is going to put on an ideal stampede at the Raymond fair next month. That affair in Lethbridge the other day is going to look like a side-show beside the one which will be held here. If you want to see a real Stampede wait for the big frontier day in Raymond.

A lady will run for the school board this fall it is rumored. Hear, hear! She is almost certain of victory, and the board will be none the weaker by the addition. School affairs are matters in which the women are perfectly concerned and they have a perfect right to demand representation.

Mortgage Sale

PURSUANT to the Order for Sale made herein by His Honour Judge Jackson, the 19th day of June A.D. 1916, in a certain action between THE EXCELSIOR LIFE INSURANCE COMPANY vs Plaintiff and JOHN POWELSON and MABEL T. POWELSON are Defendants, the following lands in the Province of Alberta, namely:

The South-west Quarter of Section 36, and the North Half of the North-west Quarter of Section 25, all in Township 6 in Range 21

West of the Fourth Meridian, subject as to the south half of said South-west Quarter of said Section 36 and the North half of said North-west Quarter of said Section 25, to the reservations and exceptions contained in a transfer to John Powelson of said last mentioned two pieces of land made by the Alberta Railway and Irrigation Company, and duly registered in the Land Titles Office for the South Alberta Land Registration District. Also Lot 1 in Block 33, according to a plan of the town of Raymond on file in the Land Titles Office for the South Alberta Land Registration District as Plan "2039-1," will be offered for sale by public auction on

FRIDAY, AUGUST 4th, 1916 at the hour of Three o'clock in the afternoon at the RAYMOND HOTEL, in the Town of Raymond.

Sale will be subject to the reserved bid which has been fixed by this Court.

Terms and conditions will be made known at the time of the sale or can be ascertained from the undersigned solicitors.

The two parcels of land first above mentioned are situated about 1 miles North West of Raymond and consists of 240 acres of good farm land. The said land is a lot to be fenced with a three strand wire fence. About 200 acres of the said land has been broken. On the said land there is said to be a stable 12ft x 16ft. The parcel of land partly above mentioned consists of an acre Lot well situated in the town of Raymond. On the said Lot there is said to be a three roomed, one storey, frame house 32ft x 12ft with an addition 12ft x 16ft also a good stable and granary.

DATED at Lethbridge, Alberta, this 19th day of June, A.D. 1916.
